

Intersection Traffic Volumes in or around Glen Osmond Road

Derived from "Traffic volumes on top 40 intersections in SA".

Source: <https://data.sa.gov.au/data/dataset/traffic-volumes-on-top-40-intersections-in-sa>

Vehicle Exposure: A measure of traffic volumes passing through intersections. It is calculated by adding the estimated Annual Average Daily Traffic (est. AADT) volumes on all arms of the intersection and dividing the result by two. Vehicle Exposure estimates are based on data obtained from the most recent single day 11 hour manual turning count surveys conducted at the intersections.
